

The 4th China International Coal Clean Energy Industry Expo

The 4th China International Coal Clean Energy Industry Expo 第四届中国国际煤炭 清洁能源产业博览会

2016年10月26-28日
October 26-28, 2016

北京·全国农业展览馆
National Agriculture Exhibition Center Beijing

邀请函
INVITATION

支持单位/Supported by:

国家能源局
National Energy Administration
国家煤矿安全监察局
State Administration of Coal Mine Safety

主办单位/Organizer:

中国煤炭工业协会
China National Coal Association

承办单位/Undertaker:

中国煤炭加工利用协会
China coal processing & Utilization Association

协办单位/Co-Sponsors:

中国煤炭工业协会选煤分会
Coal Preparation Branch, China National Coal Association
世信朗普国际展览(北京)有限公司
Shixin Lamp International Exhibition (Beijing) Co.,Ltd.

I. Exhibition Background

The Action Plan on the Clean and Efficient Use of Coal (2015-2020) unveiled by National Energy Administration in the first half of 2015 clearly put forward key priorities in seven aspects, including transformation and upgrade of traditional coal chemical industry, steady promotion of modern coal chemical industry development, etc. The Action Plan proposed the targets for the clean and efficient use of coal: the raw coal selective ratio will be raised to above 70% by 2017 and above 80% by 2020; meanwhile, by 2020, the active coal-fired power generation units' average coal consumption will be cut to below 310 g/kwh after transformation, contribution of power-generating coal consumption to total coal consumption will be raised to over 60%; substantive progress in demonstration of modern coal chemical industry will be achieved, and more complete independent technology and equipment systems will be formed. Driven by favorable policies, the pace of efficient and clean use of coal is expected to accelerate.

Given the increasingly prominent haze-based environmental issues at present, sustainable development of the coal industry as well as the Chinese economy and society can only be achieved by speeding up the process of clean and efficient use of coal. The efficient, clean, and economical use of coal relying on deep processing and conversion will be the core of the future energy systems for sustainable development. Clean and efficient use of coal resources involves the whole process of coal production, processing, storage, transportation, conversion and utilization, being a complete industrial chain from coal mining to terminal use. From the perspective of industrial development, it involves multiple industries including coal mining, electric power, metallurgy, construction materials, chemical industry and ecological environment protection, covering a wide field which will see a potential market of more than RMB 1 trillion.

Required by relevant authorities and complying with the development trend of clean and efficient use of coal, the former "China International Exhibition on Coal Processing & Utilization & Coal Chemical Industry" will be renamed as "China International Coal Clean Energy Industry Expo". The 4th China International Coal Clean Energy Industry Expo is to be convened in the National Agriculture Exhibition Center Beijing from October 26 to October 28 of 2016. Covering an expected area of 20,000 square meters, the exhibition will be attended by more than 600 exhibitors and 50,000 professional visitors. Exhibitor registration of the exhibition has kicked off and we welcome the active participation of industry vendors.

II. Agenda

Exhibition preparation: October 24 - 25, 2016

Opening ceremony: 9:30 am, October 26, 2016

Exhibition: October 26 - 28, 2016

Dismantling: 16:00 pm, October 28, 2016

III. Venue

Beijing · National Agriculture Exhibition Center (No. 16, East Third Ring North Road, Chaoyang District, Beijing, China)

IV. Concurrent Activities

1. Conference on Clean and Efficient Use of Coal of China 2016
2. Annual Meeting of Coal Preparation Branch, China National Coal Association 2016
3. The Equipment of Coal Washing and Processing Technology Forum 2016
4. China Coal Industry Ecological Civilization Forum 2016
5. China Coal Deep Processing Industry Forum 2016
6. Annual Meeting of Subcommittee for Coal Conversion of China Coal Processing & Utilization Association 2016
7. Press Conference for the “4th China International Coal Clean Energy Industry Expo”

V. Participating Organizations

1. We invite leading officials of provincial, municipal administrations and industry associations to visit the exhibition;
2. We invite the leadership and technical staff of the members of China Coal Processing & Utilization Association to visit the exhibition and participate in business negotiations;
3. We invite professional visitors like provincial and municipal coal enterprises, coal chemical enterprises, coal-based power enterprises, coal preparation plants, scientific research institutions, experts and scholars to visit the exhibition and take part in business negotiations, and ensure professional visitors with decision-making ability and purchasing ability attend the exhibition;
4. We cooperate with international industrial organizations in the field of coal and clean energy, invite global enterprises, particularly enterprises of major coal-producing countries to visit the exhibition and take part in business negotiations;
5. We publicize and report the exhibition information in over 60 professional newspapers, magazines, websites and other media home and abroad, forming an interactive alliance with professional media to conduct a full range of publicity and promotion on the exhibition and attract more professional visitors of the clean coal and energy sector to visit, negotiate or purchase.

VI. Exhibits

1. Achievements (the 12th Five-Year Period) and outlook (the 13th Five-Year Period) of clean and efficient use of coal;
2. Coal washing technology, process, equipment and engineering design achievements;
3. Coal liquefaction, coal gasification, coal-to-methanol, and other coal chemical technology, products and equipment;
4. Ecological mine construction, coal mining goaf filling technologies and equipment;
5. Coal dust removal, desulfurization, denitrification and other environmental protection technology and equipment for coal mines;

6. Briquette and coal water slurry technological process and equipment;
7. Clean transformation technology and equipment for coal-fired boilers;
8. Coal-fired units with ultra-low emissions;
9. Low-rank coal upgrading technology and equipment;
10. Coal quality testing technology and equipment;
11. Coalbed methane developing, associated minerals developing and comprehensive utilization of coal slime and coal gangue;
12. New energy technologies and equipment developments for abandoned mines.

VII. Exhibition Matters

1. Booth fee:

| Exhibition Items | Specifications and requirements | Domestic enterprises | Sino-Foreign Joint ventures | Foreign enterprises |
|----------------------------------|---------------------------------|------------------------|-----------------------------|------------------------|
| Standard exhibition booth | 3m×3m | RMB10800/booth | RMB18000/booth | US\$3800/booth |
| Corner standard exhibition booth | 3m×3m | RMB12000/booth | RMB19800/booth | US\$4200/booth |
| Indoor space | Minimum 36m ² | RMB1080/m ² | RMB1800/m ² | US\$380/m ² |
| Outdoor space | Minimum 50m ² | RMB800/m ² | RMB1200/m ² | US\$300/m ² |

2. Booth description

A. Configurations for standard exhibition booth: lintel board in Chinese and English (with a height of 25cm), two fluorescent lamps, partitions (with a total height of 250cm and available height of 246cm), one negotiating table, two chairs, carpet, and one 400W/220V power socket;

B. Exhibitors ordering bare booths shall bear the cost of booth setup. More details can be found in the Exhibitor Manual

3. Technical Seminar

RMB6000/hour for domestic enterprises; conference rooms that can accommodate 50-100 people, projectors, screens, lecterns, chairs, audio equipment, paper, pens, drinking water and pre-show publicity will be provided.

4. Registration

RMB800/person, covering lunch, drinks and service fees for booking hotels, train tickets, and airline tickets.

5. Exhibition catalogue

| Front cover | Inside front cover | Inside back cover | Back cover | Title page spread | Inside page in color | Inside page in black and white | Text Ads |
|-------------|--------------------|-------------------|------------|-------------------|----------------------|--------------------------------|----------|
| RMB30000 | RMB20000 | RMB15000 | RMB25000 | RMB25000 | RMB5000 | RMB3000 | RMB2500 |

6. Venue advertisement

| | | | | |
|-------------------|--------------------|-----------------------|---------------|---------------|
| Advertising items | Billboard | Giant vertical banner | Arched door | Airborne ball |
| Charging standard | RMB20000/billboard | RMB20000/banner | RMB15000/door | RMB8000/ball |

7. Other advertisements (the following service items will be exclusive):

| | | | | | |
|-------------------|---------------------------|----------------------------|----------------------------|------------------------|----------------------------|
| Advertising items | Admission ticket | VIP invitation | Visitor pass | Bag | Strap |
| Charging standard | RMB8000/ 10,000 copies | RMB10000/ 10,000 copies | RMB15000/ 10,000 passes | RMB6000/ 1,000 bags | RMB10000/ 10,000 straps |

VIII. Formalities

1. Exhibitors shall fill in the "Participation Contract Form" in detail and mail or fax the form with their official seals to the Organizing Committee;
2. After registration, exhibitors shall transfer relevant fees to the account designated by the Organizing Committee within 10 days;
3. Booth arrangement will follow the principle of "those who register first and pay first will be served first", and the Organizing Committee is entitled to adjust certain booths.
4. Exhibitors may refer to the separate Exhibition Manual sent by the Organizing Committee two weeks prior to the exhibition for exhibits transportation, exhibition reception, registration, accommodation and other matters.

IX. Related Services

1. Assistance for transportation and customs of foreign enterprises' exhibits;
2. Convenient services for exhibitor representatives, such as assistance in booking hotels, return tickets, and air tickets;
3. Assistance for exhibitors in holding various forms of press conferences, product and project promotion seminars, themed lectures, technical seminars and other activities;
4. Coordination for business negotiations between exhibitors and foreign delegations.

X. Organizer

China Coal Processing & Utilization Association

Information Center Tel / Fax: 010-64251130

QQ for interaction: 369181566

Website: www.ccpua.org

Address: Room 307, Building B7, East Heyan, Andingmenwai Avenue, Beijing

XI. Exhibition Office

Address: Room 919, Building A1, Qiangyou Qinghe New City, Haidian District, Beijing

Exhibitor Hotline: 010-62927900/62927552 Fax: 010-62957691
